Dear Allied Health Recruiter - Reach Price, Quality:

As of Fall 2011, **Selikoff Enterprises** is very excited to have a relationship with **FedEx** and **FedEx.com**. Our goal is that when people read our web site, apply and move to a new facility, **FedEx** maybe their shipper. This connection will provide greater exposure to professionals making these moves in the industry. Now, it will be even more affordable for them to make this change. **We are the only professional recruitment trade publication that has a relationship with FedEx.**

In addition, we also will have a relationship with Nurse Practitioners' CEU conferences. There are two running in the near future:

February 16-17 - Providence, Rhode Island - March 12-15 - San Antonio, TX

Finally, we are increasing our technological exposure. We will contract with a company that enhances our exposure to technologies that will work. As technology is in flux, it is important to choose wisely and well...for example, Facebook now has their own PAC!!! Do you want to be there?

Employees may want to use a new gadget for work.

Hackers look at it as a new route for entry.

Employers may want to list a position on LinkedIn.

Hackers look at a new target for phishing.

Employees may want to work from home transferring files for more effectiveness.

Hackers look at this as path of access from a critical database as it is usually an unprotected transfer.

Healthcare is changing. (from conversations with DR. Paul R. Polek *NewYorkTimes* Sept. 2011)

Sick people heal better when placed in a home environment with private families. This was the original rationale behind the Nursing Home concept.(Dr. Bernard E. Friedman - 1965, Founder of the original Nursing Home in Ct.) - but Nursing Homes have gotten very expensive. Dr. Polek believes it would be less expensive and more effective to locate private homes, pay these families and the ensuing costs vs. the modern Nursing Home model. Would it? How would this affect staffing? Jobs? Government concerns?

Together we can:

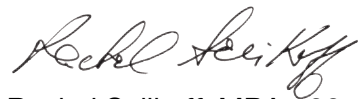

- get results faster
- close a higher percentage of interviews
- have current employees refer more frequently.

Together we can:

- make it easier for professionals to reach you
- remove the hidden obstacles
- trust you! **Let's Go For It!**

Do Not Hesitate to call 1-800-382-4069. Our entire firm is at your service.

Respectfully submitted,

Rachel Selikoff, MBA +30
